

FMS Tech. Taxi and Limo Management Platform

Designed and delivered by FMS TECH. our Taxi Management Platform delivers highest quality solution for taxi and limo service companies.

FMS TECH. advanced scheduling and dispatch system help Limo Service companies do more with less, elevating efficiency, productivity, maximize return, optimize operation, and reduce cost. Fleet Manager can easily set up and manage customer accounts and billing, take bookings by phone, online or via mobile apps and automatically assign jobs to drivers in the most efficient manner.

FMS TECH. Taxi and Limo Management Portal gives a unique chance to drive your business forward, thereby:

- Free up your control room staff using sophisticated automatic job allocation.
- Make happy customers with slick booking applications and web portal.
- Have full visibility of your whole operation, not just your cars.
- Streamline and automate invoicing and credits processing.
- Increase driver earnings and loyalty.
- Reduce response times.
- Grow your business not your operations team.

BENEFITS OF THE TAXI AND LIMO MANAGEMENT PLATFORM:

The system is divided into four applications based on user roles and responsibility:

1. Client Mobile App:

Client Mobile-App. is a booking application developed to match user experience trends, providing all necessary and handy features for such service including real-time auto allocation, view driver profile, driver tracking and step by step notification.

3. Supervisor Web App:

Allow your office staff monitor and control both fleet and booking process in a smooth and easy way with features includes: Track drivers and jobs status, booking on behalf of client with auto and manual dispatch options and full notification module on both fleet and booking jobs. On top of that, supervisor has access to complete suite of reports which includes and not limited to booking, utilization, vehicle maintenance, and driver performance.

2. Driver Mobile App:

This is brilliant app allow driver to receive and accept jobs, do direct booking, view his or her trip schedule and review individual performance. It is also occupied with digital meter and fare calculator.

4. Central Management Web App:

This web portal enables the Fleet Manager to:

- Manage client credit, do invoicing and billing with full finance module.
- Work on Business intelligence dashboard.
- Generate different kind of reports for your vehicles, drivers, jobs and maintenance work.
